

10G SFP

Single & Dual Fiber

Product Description

The 10Gbps industrial grade small form-factor pluggable (SFP) transceivers support the connectivity of the fiber optic network. They can support data transmission speed up to 10Gbps. They provide flexibility in the network deployment as they can be hot-pluggable allowing them to be removed or connected without interruption to the network.

The 10Gbps SFP transceivers can operate at a wide operating temperature from -40 degrees Celsius to 85 degrees Celsius, therefore, they are suitable to be deployed in an industrial environment. The SFP transceivers come with the Digital Diagnostic Monitoring (DDM) function which allows functions such as the voltage of supply, temperature, input or output power to be monitored.

Fully compatible with Cisco, HP, Alcatel, H3C, Huawei, Juniper, ZTE, Zyxel, D-Link, Extreme, Nortel, Netgear, Enterasys, Founfry, Adtran, Brocadem Marconi, Finisar etc.

Product Features

- Up to 10Gbps data links
- WDM DFB/APD laser
- Simplex LC Connector
- Hot-pluggable SFP+ footprint
- Single 3.3V power supply
- Operating temperature: 0~70°C/-40~85°C
- RoHS
- Digital Diagnostic Monitor (DDM)
